### National Stolen Art File Search

The National Stolen Art File (NSAF) is a database of stolen art and cultural property. Stolen objects are submitted for entry to the NSAF by law enforcement agencies in the U.S. and abroad. When an object is recovered, it is removed from the database. However, be aware that not all recoveries are reported to the NSAF. If you have information on a work of art in the NSAF, please use the FBI.gov tip line to report it.
